

Greenhouse Gas Verification Statement Number UK.PRS.VOL.INV.0719.2025

The Scope 3 inventory of Greenhouse Gas emissions and in the period January 1st, 2025 – December 31st, 2025, for

Corteva Agriscience

9330 Zionsville Road,
Indianapolis
IN46268
USA

Representing a total amount of:

6,121,680 tCO₂e Scope 3

have been verified in accordance with ISO 14064-3:2019 against a Corteva Agriscience defined methodology and the WRI/WBCSD GHG Protocol

Lead Assessors: Paulomi Raythatha & Abdullah Buhidma
Technical Reviewer: Laura Berns

Authorised by:

James McGurk
Managing Director
SGS United Kingdom Ltd

Verification Statement 1st April 2026

This Statement is not valid without the full verification scope, objectives, criteria and conclusion available on pages 2 to 4 of this Statement.

Schedule Accompanying Greenhouse Gas Verification Statement Number UK.PRS.VOL.INV.0719.2025

Brief Description of Verification Process

SGS has been contracted by Corteva Agriscience for the verification of indirect carbon dioxide (CO₂) equivalent emissions as provided by Corteva Agriscience, 9330 Zionsville Road, Indianapolis, IN46268, USA in their GHG Assertion covering CO₂ equivalent emissions.

Roles and responsibilities

The management of Corteva Agriscience is responsible for the organization's GHG information system, the development and maintenance of records and reporting procedures in accordance with that system, including the calculation and determination of GHG emissions information and the reported GHG emissions.

It is SGS' responsibility to express an independent GHG verification opinion on the -emissions as provided in the Corteva Agriscience GHG Assertion for the period January 1st, 2025 to December 31st, 2025.

SGS conducted a third-party verification following the requirements of ISO 14064-3: 2019 of the provided CO₂ equivalent assertion in the period January to March 2026.

The assessment was conducted via desk review. The verification was based on the verification scope, objectives and criteria as agreed between Corteva Agriscience and SGS on 19th October 2025.

Objective and Criteria

The objective of the verification assessment is to establish conformance with applicable verification criteria within the scope of the verification as outlined below.

The criteria under which the verification assessment is undertaken is the WRI/WBCSD GHG Protocol –the Corporate Value Chain (Scope 3) Standard and Corteva Agriscience defined methodology. Verification included confirmation of compliance with the verification criteria and checking of input data, estimation methodologies and calculations including selection and application of emission factors, on a sample basis.

Level of Assurance

The level of assurance applied was a limited level of assurance.

Materiality

The materiality required for the verification was considered by SGS to be 10% based on the needs of the intended user of the GHG assertion.

Scope

Data and information supporting the CO₂ equivalent assertion were estimated and historical in nature.

- The organizational boundary was established following the operational control consolidation approach.
- Location/boundary of the activities: Global
- Physical infrastructure, activities, technologies and processes of the organization: Operational facilities, research centres and offices.
- GHG sources, sinks and/or reservoirs included:
 - Scope 3:
 - Category 1 – Purchased Goods and Services
 - Category 2 – Capital Goods
 - Category 3 – Fuel and Energy Related Activities not included in scope 1 or scope 2.
 - Category 4 – Upstream Transportation and Distribution
 - Category 5 – Waste Generated in Operations
 - Category 6 – Business Travel
 - Category 7 – Employee Commuting
 - Category 9 – Downstream Transportation and Distribution

Statement of Independence and Competence

The SGS Group of companies is a world leader in inspection, testing and verification, operating in more than 140 countries and providing services including management systems and service certification; quality, environmental, social and ethical auditing and training; environmental, social and sustainability report assurance. SGS United Kingdom Limited affirm our independence from Corteva, being free from bias and conflicts of interest with the organisation, its subsidiaries and stakeholders. The assurance team was assembled based on their knowledge, experience and qualifications for this assignment, including experience in the assurance of environmental and Health and Safety data.

Conclusion

Corteva Agriscience provided the GHG assertion based on the criteria outlined above. The GHG information for the period January 1st, 2025, to December 31st, 2025, are verified by SGS to a limited level of assurance, consistent with the agreed verification scope, objectives, and criteria.

Emissions in Scope 3 are verified as follows:

Activity	Verified (tonnes CO ₂ e)
<i>Category 1 Purchased Goods and Services</i>	5,636,155
<i>Category 2 Capital Goods</i>	46,064
<i>Category 3 Fuel & Energy Related Activities Not Included in Scope 1 & 2</i>	99,803
<i>Category 4 Upstream Transportation and Distribution</i>	196,330
<i>Category 5 Waste Generated in Operations</i>	30,389
<i>Category 6 Business Travel</i>	27,614
<i>Category 7 Employee Commuting</i>	24,538
<i>Category 9 Downstream Transportation and Distribution</i>	60,787
Total	6,121,680

In addition, the following metrics have been verified:

Water Consumption and Disposal

Category Name	Unit (Million US Gallons)	Verified	Unit (Mega-litres)	Verified
Withdrawal – Total municipal water supplies (or from other water utilities)	MG	3,309	ML	12,526
Withdrawal – Fresh Surface water (lakes, rivers, etc.)	MG	241	ML	912
Withdrawal – Fresh ground water	MG	441	ML	1,669
Withdrawal - Irrigation	MG	4,928	ML	18,655
Water shipped Offsite for treatment	MG	109	ML	413
Total withdrawals	MG	8,919	ML	33,762
Total discharges	MG	1,180	ML	4,467
Total net freshwater consumption	MG	2,702	ML	10,228

Waste Generation

Category Name	Unit (Metric Tons)	Verified
Non-Hazardous		
Total waste recycled/ reused	MT	702,598
Total waste disposed	MT	828,912
Waste landfilled	MT	100,199
Waste incinerated with energy recovery	MT	175,080
Waste incinerated without energy recovery	MT	26,115
Waste otherwise disposed	MT	7,318
Waste with unknown disposal method	MT	0
Hazardous		
Total hazardous waste recycled/ reused	MT	36,241
Total hazardous waste disposed	MT	76,200
Hazardous waste incinerated with energy recovery	MT	11,283
Hazardous waste incinerated without energy recovery	MT	39,959
Hazardous waste otherwise disposed (landfill)	MT	502
Hazardous waste with unknown disposal method	MT	0

SGS' approach is risk-based, drawing on an understanding of the risks associated with modeling GHG emission information and the controls in place to mitigate these risks. Our examination included assessment, on a sample basis, of evidence relevant to the voluntary reporting of emission information.

SGS concludes with limited assurance that there is no evidence to suggest that the presented CO₂ equivalent assertion is not materially correct and is not a fair representation of the CO₂ equivalent data and information and is prepared in accordance with the defined methodology.

We planned and performed our work to obtain the information, explanations, and evidence that we considered necessary to provide a limited level of assurance that the CO₂ equivalent emissions for the period January 1st, 2025, to December 31st, 2025, are fairly stated.

This statement shall be interpreted with the CO₂ equivalent assertion of Corteva Agriscience as a whole.

Note: This Statement is issued, on behalf of Client, by SGS United Kingdom Ltd, Rossmore Business Park, Inward Way, Ellesmere Port, Cheshire, CH65 3EN ("SGS") under its General Conditions for GHG Validation and Verification Services. The findings recorded hereon are based upon an audit performed by SGS. A full copy of this statement and the supporting GHG Assertion may be consulted at **Corteva Agriscience**. This Statement does not relieve Client from compliance with any bylaws, federal, national or regional acts and regulations or with any guidelines issued pursuant to such regulations. Stipulations to the contrary are not binding on SGS and SGS shall have no responsibility vis-à-vis parties other than its Client.
