

## TITUS® TANK MIX COMPATIBILITY IN POTATOES

PLEASE ENSURE YOU READ THE NOTES SECTION BELOW - TITUS SHOULD ALWAYS BE USED WITH AN ADJUVANT  
This version supersedes all previous editions

|                                                             |                                                                        |                                                         |
|-------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------|
| Normal = Physically Compatible                              | <i>Italics = Physically Compatible with Continuous Agitation</i>       | Red on Blue = PHYSICALLY INCOMPATIBLE                   |
| <b>BOLD CAPITALS</b> = Physically & Biologically Compatible | <b>Bold Italic</b> = Biologically compatible with Continuous Agitation | <b>RED CAPITAL ON BLUE</b> = CROP INJURY - INCOMPATIBLE |

| HERBICIDES |               |         |
|------------|---------------|---------|
| Falcon     | Sencorex Flow | SHOTPUT |

| FUNGICIDES |                   |                |
|------------|-------------------|----------------|
| Hubble     | Revus*            | Volley         |
| Infinito   | Shinkon           | Zorvec Endavia |
| Option     | Shirlan           | Zorvec Entecta |
| Ranman Top | Shirlan Programme |                |

| INSECTICIDES  |  |  |
|---------------|--|--|
| Hallmark Zeon |  |  |

| ADJUVANTS   |  |  |
|-------------|--|--|
| Vivolt 0.1% |  |  |

| TRACE ELEMENTS |             |             |
|----------------|-------------|-------------|
| Manifol Excel  | Mancozin    | Zintrac 700 |
| Magphos K      | Mantrac Pro |             |

| COMBINATION MIXES              |                      |                                     |
|--------------------------------|----------------------|-------------------------------------|
| HERBICIDES PLUS FUNGICIDES     |                      |                                     |
| Sencorex 70WG + Zorvec Endavia | Shotput + Ranman Top | Shotput + Zorvec Enicade + Gachinko |

This summary sheet provides information on tank mixes conducted with this product. Corteva Agriscience™ gives no warranty or accepts no liability in respect to compatibilities that are beyond the label. This additional information is for guidance purposes only and use is at grower's risk.

Do not use any tank mix if the mixture cannot be applied within the recommendations for individual products or if specific tank mix restrictions apply.

Larger, more complicated mixes; unlisted mixes or replacing alternative products to those listed in this table are not endorsed. However, for further information or to register a tank mix request please contact your local Corteva representative or call the Hotline on 0800 689 8899.

Physical compatibility data is based on the results of an industry recognised standard test. Be aware that in the field, water hardness, pH, temperature etc. can vary. Biological compatibility data are based on a small number of field trials, Corteva Agriscience™ cannot warrant the efficacy of other tank mix partners. Where only Physical Compatibility or Sprayable with Continuous Agitation is shown, Corteva Agriscience™ has no biological data regarding efficacy or crop safety and only has data on physical compatibility, so growers use these mixes at their own risk.

Do not apply Titus in sequence or tank mixture with a product containing any other sulfonylurea.

### KEY:

\*Revus tank mix with Titus was tested and is supported as a physical compatibility by Syngenta.

### UPDATES:

10th September 2024 - list reviewed and updated; 17 April 2025 - updated mixing notes; 22nd April 25 - addition of Shinkon; 4th August 2025 - added Revus; 20th October 2025 - Ranman Top mix physically compatible with Vivolt 0.1% included; 27th March 2026 - removed notes relating to mancozeb, updated website address

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
