Caliphos	Magflo	Seniphos
<i>(Carnival)</i>	Magphos K	Solatrel
Coptrel 500	Maize boost	Sterling (drift retardant)
Croplift	Mancozin	Stopit
<i>(Cropsspray 11E)</i>	Mantrac DF	<i>(Universal Bio)</i>
Ferleaf	Mantrac Pro	Zintrac 700
Foliar Potash	Photrel Pro	

This summary sheet provides information on tank-mixes conducted with this product. Corteva Agriscience™ gives no warranty or accepts no liability in respect to compatibilities that are beyond the label. This additional information is for guidance purposes only and use is at grower's risk.

Important Note: Do not use any tank-mix if the mixture cannot be applied within the label recommendations for individual products or if specific tank-mix restrictions apply.

Larger, more complicated mixes; unlisted mixes or replacing alternative products to those listed in this table are not endorsed. However, for further information or to register a tank-mix request please contact your local Corteva representative or call the Technical Hotline on 0800 689 8899

Physical compatibility data is based on the results of an industry recognised standard test. Be aware that in the field, water hardness, PH, temperature etc. can vary. Biological compatibility data are based on a small number of field trials, Corteva Agriscience™ cannot warrant the efficacy of other tank-mix partners. Where only Physical Compatibility or Spray able with Continuous Agitation is shown, Corteva Agriscience™ has no biological data regarding efficacy or crop safety and only has data on physical compatibility, so growers use these mixes at their own risk.

Key

Add Dithane NT Dry Flowable to the tank first

% Always add BlueN to the tank mix last. Use a Minimum water volume of 200l/ha when using BlueN in tank mix.

Alterations

16th June 2020 - Addition of Dithane NT Dry Flowable

21st October 2020 - Addition of Dithane 945, Fusilade Max, Laser, Movovento; 18th June 2021 - addition of Alternet, Kix, Narita; Carnival, Hi-Phos-K, Kuru-S, Potato Micro Complex and Root 66. 29th June 2021 - addition of Caligula; 19th July

2021 - addition of Zorvec Gachinko; 21st March 2022 - removal of withdrawn products and addition of Bittersaltz and Universal Bio; 26th September 2023 -removal of Crown MH as no tank-mixes supported with maleic hydrazide; 15th

March 2024 review and addition of Blue N and Privest

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
